

Certifikat

Smøremiddel til
fødevare- og medicinalindustri.

GLS 962/N2

Er egnet til brug i fødevarer og medicinalindustri, på smøresteder, hvor der kan udelukkes kontakt med fødevarer og produkter under normale omstændigheder og driftsbetingelser.

Det garanteres, at produktet er i overensstemmelse med USDA H2 og/ eller godkendelse fra det Amerikanske NSF International/ Nonfood Compounds Registration Program, der har afløst USDA. Dokumentation findes på bagsiden af dette ark.

RE: ELKALUB GLS 962/N2
Category Code: H2
NSF Registration No. 125632

Dear Mr. Joachim Hof:

NSF has processed the application for Registration of **ELKALUB GLS 962/N2** to the NSF International Registration Guidelines for Proprietary Substances and Nonfood Compounds (2009), which are available at www.nsfwhitebook.org. The NSF Nonfood Compounds Registration Program is a continuation of the USDA product approval and listing program, which is based on meeting regulatory requirements including FDA 21 CFR for appropriate use, ingredient and labeling review.

This product is acceptable as a lubricant where there is no possibility of food contact (H2) in and around food processing areas. Such compounds may be used as lubricants, release agents, or antirust films on equipment and machine parts in locations in which there is no possibility of the lubricant or lubricated part contacting edible products.

NSF Registration of this product is current when the NSF Registration Number, Category Code, and Registration Mark appear on the NSF-approved product label, and the Registered product name is included in the current NSF White Book Listing of Nonfood Compounds at the NSF website (www.nsfwhitebook.org). The NSF Registration Mark can be downloaded by clicking the "Download Registration Mark" link on the NSF website (www.nsfwhitebook.org).

NSF Listing of all Registered Nonfood compounds by NSF International is not an endorsement of those compounds, or of any performance or efficacy claims made by the manufacturer.

Registration status may be verified at any time via the NSF website, at www.nsfwhitebook.org. Changes in formulation or label, without the prior written consent of NSF, will void Registration, and will supersede the on-line listing.

Sincerely,

A handwritten signature in black ink, appearing to read "Clifton J. Mclellan", enclosed in a rectangular box.
