

Product Description
ELKALUB GLG 16/N000
Special Gear Grease

GLG 16/N000 is a semi-liquid lithium-soap grease with a good resistance to oxidation as well as an excellent sliding friction behaviour and a high load-carrying capacity. The semi-liquid grease is well conveyed in central lubrication systems.

Technical data

Characterisation	GP000F -20	
Chemical composition	Mineral oil, lithium soap, additives	
Application	Gear grease with a high load carrying capacity and good sliding friction behaviour	
Temperature of use	-20 C up to +80° C (standard values, consultation necessary)	
Short-term temperature of use	up to 120°C (standard value, consultation necessary)	
NLGI class	000	
Worked penetration	410-440 units	
Water resistance	3-90	DIN 51 807
Dropping point in ° C	> 170	DIN ISO 2176
Base oil viscosity	140 mm ² /s 40° C	DIN 51 562
Oil separation	N < 10	DIN 51 817
Density (T)	0.91 g/cm ³
