

**Product Description**  
**Special grease GLS 367/N000**  
**Special grease for food industries**

Nonfood Compounds  
Program Listed (H1)  
(Registration 133173)

**GLS 367/N000** is a partly synthetic lubricating grease for application in the food industry. The product is extremely adhesive and is especially suitable for gears subject to deficient lubrication due to a spin-off of the lubricant. The product can also be applied for slow-turning antifriction bearings, for slip motions and for the lubrication of chains, valves, spindles, sterilizers etc.

**GLS 367/N00** is resistant to water, acids and alkalis.

**GLS 367/N00** is suitable for temperatures from -10° C up to +130° C (short-time up to 180° C).

**Technical data:**

<b>Characterization:</b>	KP00K-10	DIN 51 502
<b>Chemical composition:</b>	Paraffin oil, synthetic oil, inorganic thickener, additives	
<b>Application</b>	Special grease for food industries for slow turning bearings, for valves, sterilizers, spindles, gears ...	
<b>Appearance</b>	brown, transparent grease	
<b>Temperature range</b>	c. -10° C - + 130° C (short-time +180° C) (guideline value, consultation necessary)	
<b>NLGI consistency:</b>	000	
<b>Water resistance:</b>	(0-1)-90	DIN 51 807
<b>Base oil viscosity (at 40° C):</b>	200 mm <sup>2</sup> /s	DIN 52 562

These data are issued in good faith. We reserve the right to change and or supplement them.
