

Product description
ELKALUB VP 852

VP 852 is a lubricating grease, which has been developed especially for the lubrication of sliding motions.

VP 852 is applied for the lubrication of slideways, elevating spindles, slide bearings and hinges.

Technical Data

Chemical composition:	Medical white oil, organic thickener, PTFE, additives	
Appearance:	white	
Temperature range:	-10°C up to +110°C	
NLGI class:	2	
Worked penetration:	280 +/- 15 units	DIN ISO 2137
Dropping point in °C:	>200	DIN ISO 2176
Base oil viscosity:	ISO VG 68	DIN 51 562
Oil separation:	K < 1, N < 2	DIN 51817
OK load : (SHELL 4 ball tester)	3600 N	
Spherical indentation: (SHELL 4 ball tester)	0,78 mm (60 min., 1000 N, 1400 rpm)
