

Technical data
ELKALUB LFC 34220

Nonfood Compounds
Program Listed (H1)
(Registration 142298)

Chemical composition:	paraffin oil, synthetic oil, active substances		
Appearance:	clear, yellow coloured		
Area of use:	circulation- and gear oil in food making/food processing industries		
Working temperatures in °C:	-15°C to +120°C		
ISO VG - class:	ISO VG 220		
Viscosity in mm²/s at: (basic values)	25°C	465	DIN 51 562
	40°C:	220	
	100°C	20	
Density:	0,87 g/ml (25°C)		DIN 51 757
Four ball tester (o.k.-load/weld load):	1800 / 2000 N		DIN 51 350
Wear calotte:	0,52 mm (10 min, 800 N, 1440 rev/min)		
FE8-special load test procedure:	<2 mg roller wear marking		DIN 51 819

Vöhringen; 17.06.2011 AG (JB)
