

## Product Description

### ELKLAUB FLC 95

### High-Temperature Spray

**FLC 95** is an entirely synthetic, creepable grease spray with excellent adhesion and EP properties. It is free from silicones.

**FLC 95** is used for longer intervals of relubrication for temperatures up to 150° C. However, it can also be used up to 220° C if there is frequent relubrication.

Examples of use for **FLC 95** are chains (e.g. shrink tunnels, drying tunnels), joints and spindles in the high temperature and hot air range.

The spray is bottled free from FCKW.
