

## Product Description FLC 367 Grease Spray

Nonfood Compounds  
Program Listed (H1)  
(Registration 1126161)

**FLC 367** is a partly synthetic EP-grease spray with high adhesive strength for the lubrication of chains, slideways, disk cams, gear racks etc. under an increased influence of water, vapour, acids and alkalis (in the ph-range 2-11 up to 50° C). Even after cleaning procedures there remains a very thin lubricating film which at the same time protects against corrosion.

**FLC 367** penetrates well into joints and gaps.  
The product is suitable for application in the temperature range from -20° up to +130° C (short time +180° C).

**FLC 367** has the H1-approval under NSF registration no. 126161.
