

## FLC 9020

### Spray for precision mechanics

**FLC 9020** has been developed especially for the lubrication of locking cylinders, tools, devices and measuring instruments. The product has a high creeping ability and infiltrates humidity. The ageing resistant, resin and acid-free synthetic oil protects and lubricates all movable parts.

<b>Composition:</b>	PAO, additives
<b>Appearance:</b>	slightly cloudy
<b>Kinematic viscosity (at 40° C):</b>	40 mm <sup>2</sup> /s (± 10%)    ASTM D 7042
<b>Refraction index:</b>	1,460 – 1,470
<b>Density (at 20° C):</b>	c. 0,84 g/ml
<b>Iron corrosion:</b>	0 (4 hours/60°C/1% NaCl)
